AT-908 Air Sand Blaster

Features

Air Sand Blaster provides you with an easy and convenient sandblasting gun that is lightweight and portable but rugged enough for the toughest jobs. It is made of aluminum and comes with a replaceable ceramic tip. This sandblasting gun is engineered to give smooth performance.

Air Sand Blaster lets you adapt the output and spray pattern for a variety of tasks. The 10-foot hose and 12-inch pick up tube add even more versatility. You can use this blasting gun with any kind of holding container
